DETAILED ACTION

Specification

1. The abstract of the disclosure was objected to for minor informalities. Correction is noted and the objection is withdrawn.

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-5, 10-14, 16-22 and 26-30 rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent No. 5,609,624 to Kalis.

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 7-9 and 23-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kalis '624 in view of U.S. Patent No. 5,674,276 to Andersen et al.
6. Claims 32-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kalis '624 in view of Andersen et al. '276.
7. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Art Unit: 3731

Allowable Subject Matter

8. Claims 15 and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

9. Applicant's arguments filed April 21, 2003 have been fully considered but they are not persuasive.

Applicant argues that the device of Kalis is not expandable. However, the device of Kalis is made of PTFE. PTFE is a well-known material that is capable of being expanded. Therefore, the rejection over Kalis '624 is proper.

Conclusion

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
